## DETAILED ACTION

### *Amendment*

1. Receipt is acknowledged of the after-final amendment filed 28 June 2007.

### *Allowable Subject Matter*

2. Claims 1-13 and 28-42 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Applicant's arguments regarding the method claims are persuasive as the prior art of Torchalski and Nishijima fails to teach the specific, detailed steps of replacing the machine readable code on the document. Hence the best prior art of record fails to teach the invention as set forth in claims 1-13 and 28-42 and the examiner can find no teaching of the specific barcode replacing method, nor reasons within the cited prior art or on her own to combine the elements of these references other than the applicant's own reasoning to fully encompass the current pending claims. In addition, see applicant's reasoning in amendment/response filed 7 February 2007 and 28 June 2007.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
